

HIS 354 Presentation Assignment: French Decolonization of Indochina

Rationale

The purpose of the presentation assignment is to:

- *Vary assessment methods.* This presentation assignment offers an opportunity for alternative assessment, which allows students to demonstrate proficiency beyond essay-writing and multiple-choice testing.
- *Develop ability to analyze historiographical debates in depth.* This presentation assignment requires students to analyze a historiographical debate in depth, using a range of resources including textbooks, monographs, articles, and visual media.
- *Develop transferable skills.* The ability to plan and deliver a case orally, using supporting technology, are not only key skills in the context of history classes but also useful (if not essential) for many jobs.

Presentation Skills

Students should consider how they can maximize the impact of their presentation:

- *Know the task.* The question is clearly defined, so the presentation must address the salient issues.
- *Produce supporting documentation.* The presentation may be quickly forgotten unless the audience has something to take away that will remind them of the main points that have been covered. [A discussion exercise is required.]
- *Be confident.* Students should not feel intimidated by the experience of giving a paper; everyone else will have to take their turn, so students should not feel that peers will be unduly critical.
- *Be imaginative.* Students should not simply aim to write an essay and then read this out to the rest of the group. In order to make presentations more interesting students could:
 - (a) introduce handouts for the rest of the group to read (your discussion exercise should contain extracts from books and articles that indicate aspects of the historiographical debate);
 - (b) ask questions of your audience and invite them to ask you questions;
 - (c) use Powerpoint to show images as well as text;
 - (d) use a film or documentary clip.

Use your study skills guide section 4 “Using the Internet for academic purposes” and section 5 “Preparing and delivering a presentation”.

Assessment Criteria

The quality of presentations will be assessed in relation to five categories: (a) structure; (b) argument; (c) delivery; (d) visual resources; and (e) written resources. There are 40 points available in each category and a total of 200 points is therefore available for this presentation task, which is weighted at 20%.

Presentation Topic

Analyze French decolonization of Indochina with reference to the three major historiographical interpretations of the causes of European decolonization:

- (a) *Metropolitan*. This perspective is concerned with the 'official mind' and conditions in the European imperial powers. It addresses a number of sub-themes e.g.:
- Psychological – did European ruling elites withdraw from empire because they lost their will to govern?
 - Economic – how profitable were colonies in the post-war period and did this have any effect on metropolitan decision-making?
 - Military – how capable were the armed forces of dealing with insurgency?
 - Political – to what extent did domestic political pressure compel European governments to withdraw from empire?
- (b) *Colonial*. This perspective examines the role of nationalists in forcing Europeans out of their colonies – did they cause the end of empire or merely accelerate a process to which Europeans were already committed?
- (c) *International*. This perspective addresses the extent to which European decolonization was affected by pressure from the United States and the United Nations – to what extent were European states able to resist such pressure and why?
